What is a Smart Energy Inverter?

A Smart Energy Inverter is a highly efficient solar and battery hybrid inverter with optimized built-in energy management software. It supports a wide range of battery voltages and has a high voltage design that results in minimum power losses. This design provides full power capability in backup mode and seamless transitioning for protection against power outages.

What kind of battery does an inverter use?

Powered by an inbuilt 25.6V 100Ah lithium battery (2560Wh), this inverter is engineered to handle heavier loads and extended runtimes--ideal for homes, offices, shops and small businesses.

Where can I buy Inverter Batteries?

You can buy the inverter batteries mentioned in this article by clicking on the Amazon link given in this article. Make sure to cross-check the specifications before making a purchase to be an informed buyer.
