How to use electricity in Vietnam?

If you go to Vietnam it is useful to know something about the electricity, for example if you need a world plug or travel adapter. This is the most common outlet: In short, plug type A (two flat vertical pins), type C and type F (two round pins) fit most sockets in Vietnam. The following 3 adapters can be used without problems in Vietnam:

Do I need a power adapter in Vietnam?

Whether you'll need a power adapter depends on the type of plug your devices use. Here's a breakdown based on travelers from different countries and continents: In North America, the standard plug types are Type A and Type B, with a voltage of 120V. Since Vietnam uses Type A, C, and F outlets, you'll need a Type A/B to Type C/F adapter.

Do you need a voltage converter in Vietnam?

In North America, the standard plug types are Type A and Type B, with a voltage of 120V. Since Vietnam uses Type A, C, and F outlets, you'll need a Type A/B to Type C/F adapter. Additionally, as the voltage in North America is different, you may also need a voltage converter for devices that are not dual-voltage.

Can North Americans use electronics in Vietnam?

Vietnam uses outlet types A, C, F at a voltage of 220V and a frequency of 50 Hz. Plug Compatibility: Type A, Type C, Type F Voltage: 220V Frequency: 50 Hz Can North Americans use Electronics in Vietnam without an Adapter? No! North Americans may need an adapter for the outlets and transformer for the voltage when traveling to Vietnam.

Do North Americans need an adapter in Vietnam?

North Americans may need an adapter for the outlets and transformer for the voltage when traveling to Vietnam. North Americans device plugs will not work with all outlet types in Vietnam. Also, a transformer is required as the voltage in Vietnam is the different than in North America. Can Europeans use Electronics in Vietnam without an adapter? No!

Do Europeans need a travel adapter in Vietnam?

Most Europeans may need a travel adapter when traveling to Vietnam. Most device plugs will not work with the outlet types in Vietnam. Also, a transformer is not required as the voltage in Vietnam is the same as in Europe. What Outlet does Vietnam Use? Type A plug sockets have two flat pins and no grounding pin.
