What is a Bess energy storage system?

We offer energy storage systems of 50kWh~1MWh, used for commercial and industrial applications. BESS provides a wide range of technical, economic, and environmental benefits, making it a key enabler of the transition to a cleaner, more resilient, and efficient energy system.

How a 100 mw Bess will be installed in Mumbai?

100 MW BESS will be installed across 10 strategic locations in Mumbai over the next two years - Will ensure uninterrupted power supply to critical infrastructure such as the Metro, Hospitals, Airport, and Data Centers during grid disturbances, and will support grid through islanding to prevent blackouts

What are the benefits of Bess in Mumbai?

The BESS will offer ancillary services such as frequency regulation and voltage support, enhancing the stability of Mumbai's grid. It will also bolster the integration of renewable energy sources by storing surplus solar power generated during the day and redistributing it during peak demand, thus promoting greater consumption of green energy.

What is a battery energy storage system (BESS)?

BESS (Battery Energy Storage System) is a technology that stores electrical energy in batteries and releases it when needed. It is widely used in power grids, commercial and industrial facilities, and even homes to improve energy efficiency, reduce costs, and enhance power reliability.

How will Bess support Mumbai's energy sustainability goals?

The system will have high round-trip efficiency with reduced auxiliary consumption, thereby enhancing operational performance and extending the storage system's lifespan to support Mumbai's energy sustainability goals. As renewable energy adoption accelerates, BESS plays a pivotal role in enabling a smoother transition.

How much will Bess cost in 2023-26?

"The cost of BESS system is anticipated to be in the range of INR2.40 to INR2.20 crore per MWh during the period 2023-26 for development of BESS capacity of 4,000 MWh, which translates into capital cost of INR9,400 crore with a budget support of INR3,760 crore," Power Minister R K Singh said in a written response to a query in Lok sabha.
