Does N1c provide emergency power supply systems?

As well, in the unlikely event that no Eaton UPS system satisfactory meets your unique needs, N1C sales representatives can also supply emergency power supply systems for General Electric UPS Systems, Riello UPS Systems, XPC UPS Systems and other UPS manufacturers.

What is an Uninterruptible Power Supply (UPS)?

An Uninterruptible Power Supply (UPS) can supply voltage long enough for you to shut all your equipment down in the event of a power failure or power line down in a storm. It is better to shut off equipment normally than to have it suddenly lose power.

What is n+1 power supply redundancy?

N+1 redundancy is available with either 2 or 3 power supplies installed in the system. The total available power to the chassis is the sum of all installed power supplies minus that of the largest (for redundancy). This is the default power redundancy mode. Nexus Series power supply redundancy:

How do I get a free trial of the N1c UPS system?

Apply to our demo program to get a 30-day free trial of the N1C UPS System that fits your needs. The first to master the use of Lithium-Ion in the UPS space, N1C is here to lead your organization into the future of uninterruptible power. Our systems provide five times the energy than lead-acid in one-third the space.

Why should you install N1c?

Install. If it helps keep your critical infrastructure powered, N1C can make it happen. Apply to our demo program to get a 30-day free trial of the N1C UPS System that fits your needs. The first to master the use of Lithium-Ion in the UPS space, N1C is here to lead your organization into the future of uninterruptible power.

Who is N1c?

We're Your One-Stop Power Shop. N1C is your source for uninterruptible emergency power supply systems and collateral equipment using the latest lithium battery technologies. [View Filters Receptacle Type](#)

PRODUCT DESCRIPTION This uninterruptible power supply (UPS) controller UBC10.241 with integrated battery is a compact addition to standard 24V power supplies to bridge power ...
