What is the New York battery & energy storage technology consortium?

The New York Battery and Energy Storage Technology (NY-BEST(TM)) Consortium, established in 2010, serves as an expert resource for energy storage-related companies and organizations looking to grow their business in New York State.

Why is energy storage important in New York?

Energy storage plays a critical role in supporting New York's zero-emission electric grid by enabling the integration of large quantities of renewable energy, helping to smooth generation, reduce curtailment, and shift renewable generation to where and when it is needed most.

Are battery energy storage systems regulated in New York City?

Battery energy storage systems in New York City are rigorously regulated, with oversight from the safety industry, federal, state, and local authorities. All code, location, spacing, and other local requirements must be met.

What is NYCIDA's largest battery energy storage project?

NYCIDA closed its largest battery energy storage project to date, the East River Energy Storage Project, located on an industrial site on the East River in Astoria, Queens. When built, the facility will be able to hold up to 100 megawatts (MW) and power over tens of thousands of households.

What is NY-best?

NY-BEST's mission is to catalyze and grow the energy storage industry and establish New York State as a global leader in this field.

Who owns East River energy storage system?

East River ESS, LLC, an affiliate of 174 Power Global, will build the East River Energy Storage System on land leased from New York Power Authority (NYPA), where the Charles Poletti power plant was formerly located.

New York State aims to reach 1,500 MW of energy storage by 2025 and 6,000 MW by 2030. Energy storage is essential for creating a cleaner, more efficient, and resilient electric grid. ...

Empire Energy Storage is a cutting-edge battery storage developer dedicated to developing, building, and

New York Energy Storage Equipment Company

operating projects in New York City. Our mission is to revolutionize energy ...

A battery energy storage system (BESS) provides dispatchable power while it enhances grid resiliency by reducing demand on the grid and mitigating the need for polluting ...

Kodak, the tech company best known for producing photographic film and imaging equipment, has inaugurated the Kodak Cell Assembly ...

Energy Storage Roadmap: Policy Options for Continued Growth in Energy Storage filed by the New York State Energy Research and Development Authority (NYSERDA) and ...

A 110MW/440MWh project in New York has been given green light by regulators, ahead of tenders which could create significant opportunities.

New York's skyline photographed in 2008 from the Manhattan Circle Line Ferry. Image: Flickr user William Warby. The New York Public ...

It oversees more than 10,000 utility accounts for city government agencies across 4,000 public buildings. It implements creative solutions to reduce energy consumption, ...

Innovative installations in Westchester County will provide critical grid support during peak demand. Edison, NJ, Feb. 4, 2025 - CS Energy and ...

New York City Solar and Energy Storage Property Tax Abatement provides a property tax abatement for building owners in New York City who install energy storage or ...

Utility New York Power Authority (NYPA) is seeking to collaborate with renewable energy and energy storage developers and operators, as part of the state's push to deploy ...

Designing a battery energy storage system starts with selecting our equipment--the batteries themselves, as well as the enclosures that hold them. Lightsource bp's engineering and ...

NYCIDA helps to lower the cost of capital investment through discretionary tax benefits. The IDA has supported approximately 254MW of ...

Since our founding in 2008, Eos has been on a mission to accelerate the shift to clean energy with positively ingenious zinc-powered battery energy storage solutions.

June 2024 Energy Storage Roadmap 2.0 Approval I'm excited to share that earlier today the New York Public Service Commission (PSC) approved the long-awaited 6 GW Energy Storage ...
