What are Canadian ground station enhancements?

The Canadian ground station enhancements will support both Globalstar's existing satellite constellation and provide the critical infrastructure necessary for the advanced capabilities of the third-generation C-3 system.

Where are Globalstar's ground stations located?

COVINGTON, La. -- (BUSINESS WIRE)--Jul. 24, 2025-- Globalstar, Inc. (NASDAQ: GSAT), a next-generation telecommunications infrastructure and technology provider, today announces that construction has commenced at Globalstar's two Canadian ground stations, High River in Alberta and Smiths Falls in Ontario.

What projects are being implemented at Canadian Forces Station alert?

Representing more than \$10 million in infrastructure investment, several important projects are being implemented at Canadian Forces Station Alert, including upgrades to the fire alarm and suppression system (\$5 million), and the replacement of fuel storage tanks (\$2.5 million) and a power plant generator (\$2.8 million).

What is Canada's military infrastructure portfolio?

The Canadian Armed Forces (CAF) and the Department of National Defence continuously maintain and upgrade military infrastructure across Canada. Every year, millions are invested in buildings, roads, military housing, runways, etc. The infrastructure portfolio includes approximately:

What is Globalstar's Canadian expansion?

The Canadian expansion represents the latest milestone in Globalstar's worldwide effort to deploy over 90 additional tracking antennas supporting its third-generation C-3 mobile satellite system. This global infrastructure investment is designed to deliver next-generation mobile satellite solutions to billions of people and IoT devices.

What's new at 22 Wing/Canadian Forces Base North Bay?

The Honourable Bill Blair, Minister of National Defence, officially marked the completion of the new \$22 million Health Services Centre at 22 Wing/Canadian Forces Base North Bay. This facility provides our personnel with faster, higher quality care, increasing their availability for operations.

Two sets of NR30 and RT97 can form a small farm base station. There is also a cigarette lighter in the RT97

kit, and small base stations can also be built outdoors. NR30 5W GMRS handheld ...
