Who inaugurated Samoa's New generators?

The Speaker of the House, Papalii Lio Masipau, had the honor of cutting the ribbon to officially inaugurate the new generators, marking a significant milestone in Samoa's power infrastructure development. Related topics:

How many diesel generators are there at fuluasou substation?

The Electric Power Corporation (EPC) unveiled three new diesel generators at the Fuluasou substation on Friday, a move set to enhance the reliability and sufficiency of power supply amid growing electricity demand. EPC invested \$10.7 million in acquiring a total of four generators.

Why is Samoa launching a new electricity source?

The launching of a new electricity source that will benefit up to 5,000 families on the north-western side of the island of Upolu, is a milestone for Samoa's renewable energy efforts. It is also a significant contribution to the country's climate action commitments.

Why is Samoa preparing for the Commonwealth Heads of Government Meeting?

The new generators are also timely, as Samoa prepares to host the Commonwealth Heads of Government Meeting (CHOGM) in October. These generators will ensure a reliable power supply for both public use and the high-level meeting, enhancing Samoa's readiness for the event. Olo commended EPC's efforts in providing affordable electricity to the public.

How many megawatts does a Fiaga generator produce?

Each generator has a capacity of producing 2 megawatts of electricity, significantly bolstering the nation's power infrastructure. Minister of Works, Transport, and Infrastructure, Olo Fiti Vaai, highlighted that the existing power generation infrastructure includes 32 megawatts from the Fiaga generator, hydropower, solar, and wind power.
