How many solar projects are there in Southeast Asia?

Paris/Singapore - Total, through its affiliate Total Solar Distributed Generation, has added six new solar projects with a total capacity of around 10 megawatts-peak (MWp) to its renewables portfolio in Southeast Asia since October 2019. These distributed generation projects are located in Thailand, the Philippines, Indonesia and Singapore.

What is the Southeast Asia Solar supply chain map?

This edition of the Southeast Asia Solar Supply Chain Map provides a detailed snapshot of current realities and future ambitions, as the region navigates complex trade, investment, and production challenges.

The first 2025 edition of the Southeast Asia Solar Supply Chain Map includes significant revisions and additions, driven by valuable market feedback and the region's evolving geopolitical and industrial dynamics.

Why is PV module manufacturing under pressure in Southeast Asia?

Despite strong ambitions, PV module manufacturing in Southeast Asian is currently under pressure. Operational capacities have been significantly reduced or temporarily halted, primarily due to U.S. import tariffs. Once a strategic workaround for Chinese manufacturers aiming to access Western markets, Southeast Asia now faces growing constraints.
