What is the Wellington Battery energy storage system (BESS)?

The Wellington Battery Energy Storage System (BESS) is planned to be developed in the central west New South Wales (NSW), Australia. The project will comprise a grid-scale BESS with a total discharge capacity of around 400MW. AMPYR Australia, a renewable energy assets developer in the country, owns 100% of the BESS project.

Where is Wellington South Battery energy storage system being developed?

Wellington South Battery Energy Storage System is being developed in NSW, Australia. (Credit: Sungrow EMEA on Unsplash) The Wellington Battery Energy Storage System (BESS) is planned to be developed in the central west New South Wales (NSW), Australia. The project will comprise a grid-scale BESS with a total discharge capacity of around 400MW.

What is the target capacity of the Wellington Bess?

The target capacity of the Wellington BESS is 500 MW / 1,000 MWh, making it one of the largest battery storage projects in NSW. The Wellington BESS will connect to the adjacent TransGrid Wellington substation, adjacent to the Central West Orana Renewable Energy Zone (Central West Orana REZ).

When will the Wellington substation be built?

Construction of Stage 1 (300MW / 2 hours) will start mid-2025, finishing early 2027. Plans for construction of Stage 2 are ongoing, but construction is likely to follow 12 to 18 months behind Stage 1. The existing Wellington substation is very strategically located within the NSW energy grid.

Which is the largest battery storage project in NSW?

This will make Wellington BESS one of the largest battery storage projects in NSW. Wellington is being constructed at 6773 and 6909 Goolma Road, Wuuluman NSW 2820. The project site is situated within the Central-West Orana Renewable energy Zone (CWO REZ), in the Dubbo Regional Council local government area (LGA).

How will the Wellington Bess project be developed?

The Wellington BESS project will be developed in two stages. The first stage will have a capacity of 300 MW / 600 MWh, while an additional 100 MW / 400 MWh capacity to be added in the second phase.

The Wellington Energy Storage Project Cooperation isn't just another battery farm - it's a game-changer for

New Zealand's energy transition. Think of it as the "Swiss Army knife" of power ...

Ampyr now owns 100% of the 400MW Wellington BESS project in New South Wales Ampyr Australia has acquired Shell's 50% stake in the 300MW Wellington battery ...

[Sydney, 14 October 2022] AMPYR Australia Pty Ltd (AMPYR) and Shell Energy Australia (Shell Energy) have signed a joint development agreement for a ...

The Wellington Stage 1 BESS is AMPYR's first grid-scale battery energy storage system to reach financial close in Australia. This project is scheduled to be energised in 2026, ...

Elora BESS is the name of a project based on Battery Energy Storage System (BESS) technology in Wellington County that will help power ...

Another two giga-scale battery storage projects are taking shape, with one likely to have a major shock absorber role for the grid.

It's been a busy few months for the Maryvale Solar & Energy Storage Project team with the appointment of our Engineering, Procurement, ...

Renewable energy developer Ampyr Australia is seeking an investor for a 400MW/1,000MWh battery energy storage system (BESS) in New South Wales, Australia. ...

Stonepeak-backed Ampyr Energy Global has taken over a 50% stake in a 1GW Australia battery energy storage system (BESS) from Shell Energy. A Shell Energy ...

Renewables developer Ampyr Australia plans to fast track development of a 500 MW/1 GWh battery energy storage system (BESS) in ...

Wambal Bila, a new Aboriginal community-led corporation, has secured a landmark agreement for a 5% equity stake in the \$340 million Wellington Stage 1 Battery Energy ...

The Wellington BESS will be located within the CentralWest Orana REZ. Image: Ampyr Australia. Renewable energy developer Ampyr Australia ...

BESS projects play an important role in the future electricity system. The project is in the Central West Orana Renewable Energy Zone three kilometres north-east of Wellington. ...

The Maryvale Solar and Energy Storage Project is a proposed renewable energy facility located near the town of Maryvale, 12km North-West of Wellington. The ...

Wellington Mobile Energy Storage Project

The Wellington Battery Energy Storage System (BESS) is planned to be developed in the central west New South Wales (NSW), Australia. The project will comprise a ...
